(for E/F Type Couplers)

Frontier Alloy Steels has a state of the art investment casting facility. The facility was setup in the year 2013 at its Paonta Sahib Plant. It has an annual manufacturing capacity of 2000 MT of Investment Castings.

Major Products manufactured are Locks, Double Rotary Lock Lift Assembly, and Knuckle Throwers for H Type Couplers and E/F type Couplers.

The investment casting facility is the first in India to be registered with RDSO, Ministry of Indian Railways, for the supply of investment casted products for WD-70-BD Couplers.
